Singapore Association for Mental Health Helpline	For people who have psychological, psychiatric or social problems, and others who need information for such persons	1800 283 7019 (Monday – Friday, 9am – 6pm)

COMMUNITY OUTREACH TEAM

The Community Outreach Team (CREST) focuses on raising public awareness of mental health conditions and dementia, promotes early recognition of at-risk individuals, provides emotional support to individuals and their caregivers and links individuals to relevant health and social care services when necessary.

* The Caregiver Support Network Community Outreach Team (CREST-CSN), formerly known as Caregiver Community Outreach Team (CREST-Caregivers), focuses on caregivers who have or are at risk of developing depression, anxiety and burn-out due to their caregiving role. The team increases public awareness of caregiving concerns, promote identification of caregiver needs, supports caregivers in self-care and links caregivers up with support groups and counselling services where needed.

** The Youth Community Outreach Team (CREST-Youth) focuses on raising awareness of mental health and promotes early identification of mental health needs in youths. The team also provides emotional support to youth in psychological distress and actively involves the caregivers of youth in their recovery journeys. The team serves as the community node linking youths and their families to appropriate health and social support networks when necessary.

COMMUNITY INTERVENTION TEAM

The Community Intervention Team (COMIT) provides assessment, counselling, therapy, case management and psychoeducation support for clients with mental health issues and dementia, including their caregivers. COMIT works closely with the community outreach teams, General Practitioners, Polyclinics and other community partners to provide holistic care to clients.

The Youth Integrated Team (YIT) provides community-based mental health assessment, therapeutic intervention and case management for youths with mild mental health conditions. The team also works actively with their families, schools and other youth agencies to provide holistic case management.

MENTAL HEALTH GENERAL PRACTITIONERS PARTNERSHIP

Clients with mild to moderate mental health and chronic health conditions can seek holistic treatment at a nearby General Practitioner (GP) clinic, Polyclinics or Family Medicine Clinics (FMCs), which is closer to home and in a less stigmatising environment.
